

Deploying an Assessment in Blackboard

Deploying an Assessment in Blackboard

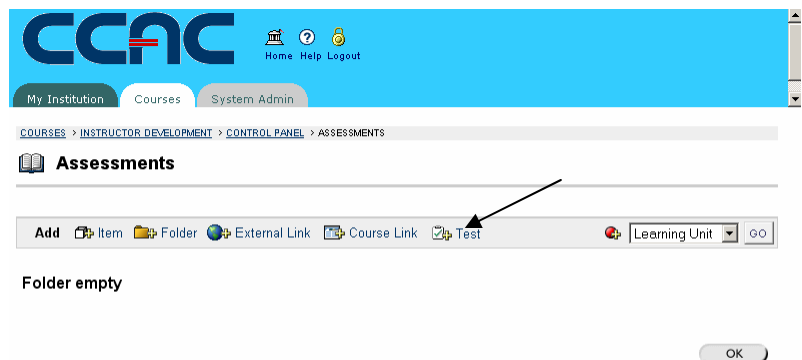

To deploy an assessment in Blackboard, you must first access the Control Panel of the course site. The link to the Control Panel is located under the navigational buttons of a course site and is only available to users with instructor status in that course site.

In the Content Areas group of the Control Panel will be the different areas of the course site which can deploy an assessment. Click on a content area link to begin.

1. Click on **Control Panel**
2. Choose a **Content Area** from the *Content Areas* box

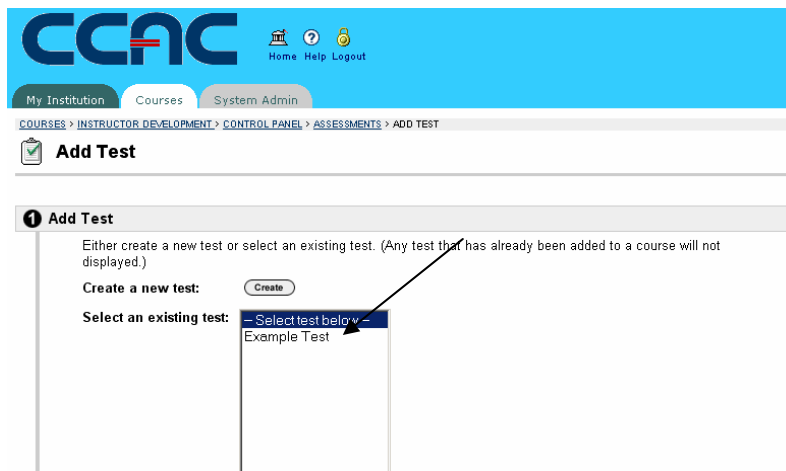

3. Click the Add **Test** button to Deploy an assessment

4. **Select an existing test** from the list or click the **Create** button to **Create a new test**

5. Click **Submit**

6. **Test Added:** The test was successfully added, click **OK** to continue

The **Modify the test** link modifies the assessment without going to the test manager

The **Modify the test options** link sets the assessment's availability and feedback
